Location: Tartus, Syria

Education

Bachelor of Science in Information and Communication Technology Engineering
Telecommunication Technology Department - Tartus University
04/2019 - 08/2024

Summary

Detail-oriented Telecommunication Engineer with a Bachelor's degree in ICT Engineering. Strong foundation in wireless communication systems, RF planning, and optical network design.
Passionate about leveraging academic knowledge and hands-on training to contribute to modern telecom infrastructure and network optimization projects.

TRAINING & PROJECTS

Integrated Telecommunication Engineering Course | November 2024- in progress| MY Communication Academy
Certified in Wireless Communication
Certificate link : https://drive.google.com/file/d/1q7hcTDODFG9rQL2-z5nX9ky0IYWjUImy/view?usp=drivesdk

Wireless |(Project Link: https://drive.google.com/drive/folders/1plDOF_JxbvOsbHN8RuAS0WSISDF9Wndg /...)

• Comprehensive understanding of wireless technologies (2G, 3G, 4G, 5G) including network architecture, RAN, and Core components (BBU, RRU, AAU, CPRI, SFP).
• Proficient in RF planning, link budgeting, and interference mitigation using Atoll software.
• Knowledge of advanced 5G features (NSA, SA, MIMO, beamforming) for enhanced throughput and coverage optimization.

Optical Fiber |

• Hands-on training in DWDM network design using Huawei OSN systems.
• Familiar with optical modules (MUX, DCP, WSMD, DAP) and network technologies (ROADM, FOADM, PON/FTTx).
• Experienced in preparing HLD and LLD documents ensuring network scalability and reliability.

Experience

RF & RAN Engineer - Training Project || My Communication Academy – Remote || Nov 2024 - Apr 2025
• Designed multi-technology BTS (GSM, UMTS, LTE) using Atoll for coverage prediction.
• Selected and integrated equipment from top vendors (Ericsson, Huawei, Nokia).
• Performed frequency and power planning to reduce interference and optimize KPIs.
• Conducted field survey, site selection, and simulated coverage maps.

Skills

- RF Planning & Optimization (Atoll).
- Wireless Network Design (2G/3G/4G/5G).
- Optical Network Design (DWDM, FTTx, ROADM).

- Network Performance Analysis & KPI Monitoring.
- Microsoft Excel (Advanced Data Analysis, Pivot Tables, Dashboards).
- Problem Solving, Communication, and Team Collaboration.

Languages

Arabic: Native
English: Intermediate (Good working proficiency)
